

# FAC-C Modernization: Supervisor Checklist

## Review FAC-C Policy Changes

- Review updates to the Federal Acquisition Certification in Contracting (FAC-C) program, including changes to training, education, experience, and testing requirements.

## Explore Credentials

- Review updates to the new credential program. The program will provide your team members opportunities to build technical expertise at the point of need and support continuous learning.

## Review Certification Status

- Confirm the certification status of your team members and review your agency-specific guidance for workforce members who are in-progress towards achieving a certification.

## Check-in with Your Employees

- Schedule time with your employees to review the program updates, discuss how the changes impact them, and address any questions.
